DECISION ON PETITION

UNDER 37 CFR 1.47(a)

This is a decision on applicant's petition under 37 CFR 1.47(a), filed in the United States Patent and Trademark Office (USPTO) on 08 February 2006, to accept the application without the signature of joint inventor, Saleh Osman.

### BACKGROUND

On 10 June 2005, applicant filed a transmittal letter (PTO-1390) requesting entry into the national stage in the United States of America under 35 U.S.C. § 371. Filed with the Transmittal Letter was, *inter alia*, the requisite basic national fee.

On 05 December 2005, a Notification of Missing Requirements (FORM PCT/DO/EO/905) was mailed to applicant indicating *inter alia*, that the oath or declaration in accordance with 37 CFR 1.497(a) and (b) and the surcharge for filing the oath or declaration after the thirty month period was required.

On 08 February 2006, applicant filed the instant petition along with a declaration, executed by the joint inventors on behalf of the nonsigning inventor Saleh Osman. The petition under 37 CFR 1.47(a) in an attempt to satisfy the requirements of 35 U.S.C. 371(c)(4) requested the acceptance of the application without the signature of inventor, Saleh Osman alleging that Mr. Osman refuses to sign the application.

### DISCUSSION

A petition under 37 CFR §1.47(a) must be accompanied by (1) the fee under 37 CFR §1.17(g), (2) factual proof that the non-signing joint inventor(s) refuses to execute the application or cannot be reached after diligent effort, (3) a statement of the last known address of the non-signing inventor(s), and (4) an oath or declaration by each available joint inventor on his or her own behalf and on behalf of the non-signing joint inventor(s).

To satisfy Item (1), a petition fee of \$200 is required and will be charged to applicant's

deposit account per his authorization. Item (3) is satisfied because the last known address of non-signing inventor was provided. With regard to item (4), the declaration executed by the available joint inventors on their behalf and on behalf of the non-signing inventor was submitted and satisfies the requirements of 37 CFR 1.47(a).

With respect to Item (2) above, in support of the petition under 37 CFR 1.47(a), Petitioner provided the declaration of Dicran Halajian, who states that he prepared the above referenced application. Mr Halajian states that a copy of the patent application, drawings, declaration and assignment were emailed to the co-inventors. Mr. Halajian further states that "all attempts to contact Mr. Osman have failed." However, Mr. Halajian's statement does not indicate that it is a statement of first hand knowledge and does not detail the steps taken to reach Mr. Osman. A copy of the letter which accompanied the attempts was not attached to the statement. Furthermore, no evidence of the mailing of these documents accompanied the statement (i.e. Federal Express receipts confirming delivery). Mr. Halajian does not indicate that he himself made "multiple attempts to call Mr. Osman at the last known phone number and times and dates of these calls. Nor has he indicated what attempts he made to confirm Mr. Osman's last known address, email or phone number (contacting the co-inventors or his last known employer).

Section 409.03(d) of the Manual of Patent Examining Procedure (MPEP), Proof of Unavailability or Refusal, states, in pertinent part:

A refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not itself suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the nonsigning inventor, or, if the nonsigning inventor is represented by counsel, to the address of the nonsigning inventor's attorney.... It is reasonable to require that the inventor be presented with the application papers before a petition under 37 CFR 1.47 is granted since such a procedure ensures that the inventor is apprised of the application to which the oath or declaration is directed. *In re Gray*, 115 USPQ 80 (Comm'r Pat. 1956)

*Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.*

Proof that a *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.

When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which the conclusion is based should be stated in a statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the

petition or any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition.

(Emphasis added.)

In sum, Petitioner has satisfied Items (1), (3) and (4) above. However, Petitioner has not satisfied Item (2) by demonstrating: (1) a *bona fide* attempt was made to present a *copy of the application papers for U.S. application 10/538,633 (specification, including claims, drawings, and declaration)* to the nonsigning inventor for his signature and (2) Mr. Osman's refusal to sign, either in writing or by telephone, these documents.

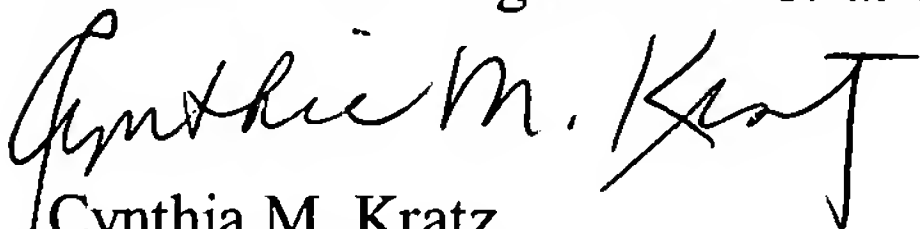

For the reasons set forth above, the evidence submitted does not support a finding that the nonsigning inventor refuses to sign the application at this time. Accordingly, it is inappropriate to accord the national stage application status under 37 CFR §1.47(a) at this time.

### CONCLUSION

The petition under 37 CFR §1.47(a) is **DISMISSED WITHOUT PREJUDICE**.

Any reconsideration on the merits of the petition under 37 CFR §1.47(a) must be filed within TWO (2) MONTHS from the mail date of this decision. Any reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR §1.47(a)." No petition fee is required. Any further extensions of time available may be obtained under 37 CFR 1.136(a).

Any further correspondence with respect to this matter should be addressed to the Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, Virginia 22313-1450, with the contents of the letter marked to the attention of the Office of PCT Legal Administration.
